Internship Program

Our internship program is designed to bridge the gap between academic knowledge and real-world industry requirements. Tailored specifically for engineering college students, this program provides comprehensive hands-on training in cutting-edge technologies and practical problem-solving.

What you will learn

High-level concepts of Web & Mobile Application Development
Fundamentals of Client-Server Communication
How to Build Sample Applications from Scratch
Industry-Standard Development Practices
Hands-on Experience with Real-World Projects

Program Benefits

Industry-recognized internship certificate
Resume enhancement for job applications
Valuable experience for technical interviews
Portfolio-worthy project development

Our Technology Training Program covers

Web Technology

HTML, CSS, Javascript (Fundamentals of UI/UX & DOM interaction)

Backend Development

Node.js (REST APIs, Express, MongoDB interaction)
Python.js
Java(OOP, Spring basics, REST APIs)

Frontend Development

React.js(Single Page Applications)
React Native (Cross-Platform Mobile App Development)

Cloud Computing

Cloud Fundamentals (AWS/GCP/Azure)
Deployment, Serverless (AWS Lambda),
CI/CD basics

WHAT SETS US APART

Industry-experienced instructors who bring real-world insights

Project-based learning to ensure practical skill development

Real-world case studies and applications that reflect current industry needs

Small batch sizes for focused, personalized mentoring

Continued post-training support and access to valuable learning resources

CERTIFICATE VALUE

Demonstrates hands-on project experience

Enhances your credibility during job interviews

Validates your technical skills and competencies

Differentiates you from other candidates in the job market

Builds confidence for technical discussions and evaluations
